

AMENDED  
APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER  
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF  
NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office AUG 01 2003

Returned to applicant for correction AUG 27 2003

Corrected application filed SEP 12 2003

Map filed SEP 12 2003

\*\*\*\*\*

The applicant **City of Fernley** hereby makes application for permission to change the **Point of Diversion and Place of Use** of water heretofore appropriated under **Permit 49231 (Well No. 5A)**

\*\*\*\*\*

1. The source of water is **Underground**
2. The amount of water to be changed **2.0 cfs**
3. The water to be used for **Municipal and Domestic**
4. The water heretofore permitted for **Municipal**
5. The water is to be diverted at the following point **NW¼ NE¼, Section 10, T20N, R24E M.D.B.&M., or at a point from which the N¼ corner of said Section 10 bears N 04°31'34" W a distance of 1225.48 feet.**
6. The existing permitted point of diversion is located within **NW¼ SW¼, Section 5, T20N, R25E M.D.B.&M., or at a point from which the W¼ corner of said Section 5 bears N 69°24'00" W a distance of 830.00 feet.**
7. Proposed place of use **(See Attachment A)**
8. Existing place of use **Sections 10, 11, 12, 13 & 14; E½, E½ NW¼, NW¼ NW¼ Section 15; NE¼ NE¼ Section 22; N¼ Section 23; all of Section 24 excepting the SE¼ SW¼ all in T20N, R24E; Sections 3, 4, 5, 7, 8, 9, 17, 18, 19, and the W½ of Section 20, T20N, R25E M.D.B.&M.**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **well, pump, motor, meter, and associated piping.**
12. Estimated cost of works **\$650,000.00**
13. Estimated time required to construct works **one year**
14. Estimated time required to complete the application of water to beneficial use **5 years**
15. Remarks: **Water is to be diverted from a new well to an existing water storage reservoir to meet increasing demands. Transfer of the existing right to a new point of diversion will not**

change the comingled duty and will help prove beneficial use on all non-certificated groundwater rights.

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 49231 is issued subject to the terms and conditions imposed in said Permit 49231 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 17661, Certificate 7410; 27437, Certificate 9943; 34765; 35976; 40001; 40004; 49229; 56403, Certificate 14256; 57168, 57169, 61471, 61767, 70287, 70288, 70289, 70290 and 70291 shall not exceed 2,815.72 million gallons annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit.

Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second, but not to exceed 471.94 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

March 17, 2005

Proof of completion of work shall be filed on or before:

April 17, 2005

Water must be placed to beneficial use on or before:

March 17, 2009

Proof of the application of water to beneficial use shall be filed on or before:

April 17, 2009

Map in support of proof of beneficial use shall be filed on or before:
